DETAILED ACTION

Response to Arguments

Applicant's arguments, see page 6, filed November 7, 2005, with respect to claim 9 (currently canceled and added to claim 1) have been fully considered and are persuasive. The rejection of 9 has been withdrawn.

Allowable Subject Matter

Claims 1-7 and 10-11 are allowed.

The following is an examiner's statement of reasons for allowance:

As for claim 1, the prior art does not teach or fairly suggest the use of a digital image capture system comprising an image sensor, a package structure for holding said image sensor, said package structure including attachment means for attaching an optics system to said package structure, having a transparent cover connected to said package structure that encloses said image sensor within a cavity of the package structure and a protective barrier, connected to said attachment means, that protects said transparent cover from damage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
